Warfarin Clinic **Worthing Hospital.**

Dear Warfarin Patient
We have successfully been using E-Mail to Warfarin patients since October 2009
Patients receive their results within hours and this is very helpful when postal disruption is ongoing ,
If you do not have a personal E-mail address but you have a relative or carer who does, provided that you are happy for them to receive results on your behalf, and have signed below, we can use their address.

We are now inviting you to inform us if you have an E-mail address to which we can send your results. .You may need to mark our incoming E-mail sender address Acatworthing@wsht.nhs.uk as an acceptable sender.

Please note that this address does receive E-mails. These incoming E-Mails are accessed **only** in the mornings and your incoming queries or requests for information should be kept to important subjects, as reading time is limited for our stall and important information may be missed if the system is swamped with thank you's or acknowledgements.

Thank you in anticipation
Wendy Cottee – Lead Biomedical Scientist.

If you would like to participate– please fill out the form below – detach and place in your yellow book. We will then add the E-Mail address to your file at your next visit to us.
……

PATIENT NAME – Block Capitals Please ……

Hospital Number ……(on front of yellow book).

Private E-Mail address (as clearly as possible to avoid mistakes)

Please do **not** sign up unless……

1.You consent to having your results and Anticoagulant Dosage sent to your personal e-mail address, or that of an approved relative/carer and will sign below.
I understand that sending this information over the internet is not 100% secure and that there is a small risk of the information being accessed during transit.

Signature……..

2. You do **not** have any known problems with E-mails "getting lost" Y/N

3. You have access to a printer Y/N
