PALS can provide you with advice or support

We welcome your feedback as all views are important to us. Listening to our patients and relatives helps us to learn and continually improve patient experience. Please speak to the staff or contact the PALS office about whatever may be worrying you and we will do our best to help. If the PALS staff cannot resolve your concerns we will help you take the issues further.

- PALS provide a confidential service offering on the spot advice and support
- PALS can guide you through the different services available from the NHS
- PALS will listen and help to resolve any concerns you may have about the services we provide
- We advise always talking to staff members working with you if you become concerned. It is often possible to resolve any issues straight away before they escalate
- If you are not happy with individual responses given by staff member, please ask to speak to the person in charge of the department

Please feel reassured that your care will not be adversely affected if you disclose that you feel unhappy about you or your loved ones care. In fact the staff would rather know that you are unhappy so that they can address your concerns and do their best to put things right as quickly as possible.

Complaints should be made as soon as possible, within a year of the event if possible. If you wish to talk about how to make a complaint, please contact our customer relations department on 01903 285032. If you prefer you can make your complaint in writing and in which case you should address your letter to:

The Chief Executive
Western Sussex Hospitals NHS Foundation Trust
Worthing Hospital
Lyndhurst Road
Worthing
BN11 2DH

Or e-mail: ComplaintsTeam@wsht.nhs.uk

A member of staff will contact you either by telephone or in writing to discuss the way your complaint will be managed. The complaints procedure is flexible depending on what you are looking for when you complain and how we can best resolve the issues raised. Depending on what you have agreed at the start of the process, either a written response is sent to you from the Chief Executive or a meeting is arranged.

Complaints are treated in confidence. The details are not kept on your medical records and will not affect your ongoing or future treatment in any way.

Lasting Power of Attorney—If someone else complains on your behalf, we will need your written permission for that person to act for you unless they have a lasting power of attorney that relates to health and welfare.

A copy of the Trust complaints policy can be found on the website at www.westernsussexhospitals.nhs.uk
